### PRODUCT SPECIFICATION DETAIL:

Lamb CKT Leg Weight Ranged 1.75kg - 2.25kg

Remove leg by a straight cut approx. 25mm below the tip of the aitch-bone

Any precural gland and associated fats removed

Knuckle tip removed at the rise of the shankmeat gamcord entirely removed without removing excess meat from the shank

Trim fats over all surfaces to less than 5mm with attention over the topside

No loose pieces and remove all visible defects prior to packing

---

### PRODUCT PACKAGING DETAILS:

Packed 1 leg per NON BRANDED vacuum bag.

Shank cap to be used.

Sufficient airspace is to be available around the cut to ensure best vacuum is achieved.

Preference is to place the cut meat side to the reduced sized legend.

No Piece label required.

Pack approx 8 Legs per polylined carton tidily and consistently.

No carton bulging at closing.
