PRODUCT SPECIFICATION DETAIL:

Meat pieces with a lean content of 50CL including:

- Prescapular triangle with gland out
- Loin side train
- Any loin skimming from heavier carcasses that is fatty
- Corner of flap triangle that comes off from the saw through natural cutting lines
- Any other trim not required to fatten up 75CL

Remove all visible defects prior to packing.

All lymph nodes must be removed.

PRODUCT PACKAGING DETAILS:

Bulk packed into set weight 27.2kg poly-lined cartons in a tidy and consistent manner.

Poly-liner to be pulled up during and/or on completion of packing to avoid poly-entrapment occurring.

Care taken that product is packed to the corners of the carton to avoid carton bulging.
