---	--

AUS MEAT Code: 2340
NAMP Code:
Alternative Descriptions:

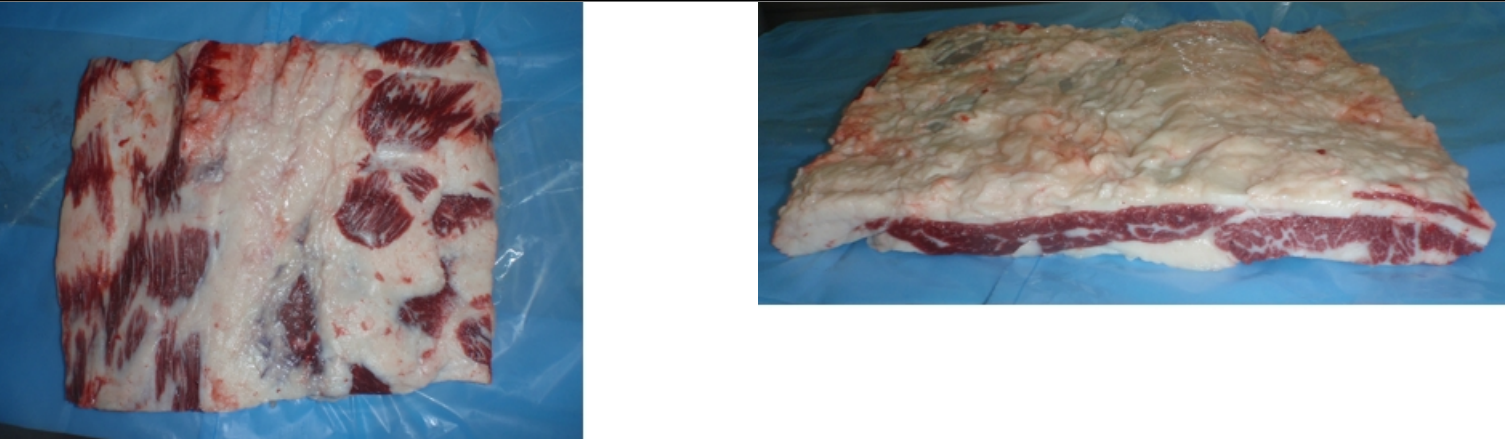

Cutting
 Brisket is prepared from a 13 rib Forequarter by a straight cut which commences at the junction of the 1st rib and 1st sternal segment to the reflection of the diaphragm at the 11th rib and continuing to the 13th rib. The Navel End Brisket is cut following the caudal edge of the 6th specified rib. The Transversus Abdominus (inside skirt) should already be removed. All Deckle should be left in situ and Fat trimming is not required. Ensure all bone chips, glands, cartilage, blood clots, bruises, white fibrous tissue on the ventral edge (linea alba) and major fibrous connective tissue and any other contamination are removed.

Trimming
 All Deckle should be left in situ and Fat trimming is not required. Ensure all bone chips, glands, cartilage, blood clots, bruises, major fibrous connective tissue and any other contamination are removed.

Packing
 Pack in a D800 Full Frozen Carton Base with a Blue Liner to a maximum of 27.7 kg (catch weight); Avoid bulging cartons; Ensure Polyliner Entrapment is avoided; Ensure neat presentation;

Labelling
 A Firstlight White Piece label must be applied flush with bottom of the carton and within the right hand side of black square located on right hand side of the carton. Ensure neat presentation.

Best Before Date:
 24 months
