| Cooking Instructions               | For best results cook from frozen. Griddle on a medium heat (approximately 190°C) for 6–8 minutes, turning frequently. Alternatively, this product may be chargrilled. Cooking times may vary, always refer to the manufacturer’s guidelines for the equipment used and ensure a core temperature of no less than 75°C is achieved. This is a raw product, cook thoroughly until piping hot and juices run clear. |                                                                                                                               |                                                             |                                    |                   |                  |
| Storage Instructions:              | Store at -18°C or colder. Do not refreeze once thawed.                                                                                                                                                                                                                                                                                                                                                            |                                                                                                                               |                                                             |                                    |                   |                  |
